# HR5 Specific Features

## Add and edit visual ID's in the yard

Visual ID's can be added, and used to identify and record information against an animal eg. replacing a lost EID tag number.

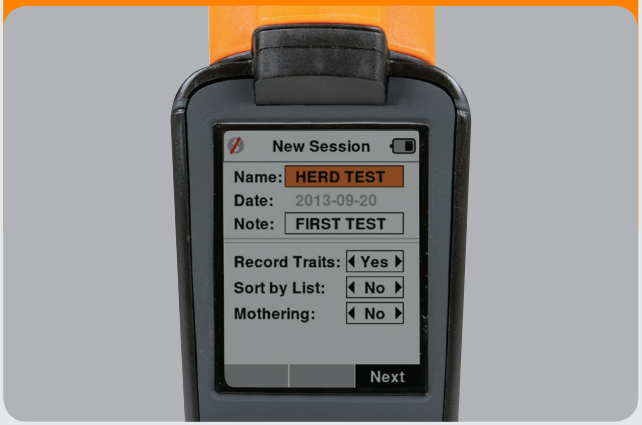
## Link mothers to their offspring

- Link mothers with their newborns
- Add birthing details and data such as sex, birthing ease and fate.

## Versatile data entry

- Numeric, text, date and pick-list type traits can be entered eg. an observation using the free text entry field
- Animal notes can be set to appear when the animal is next scanned.

## Add and edit session names



Personalise session names (eg. Week 13 Lambs, Pen 12 Angus, Hereford Cows) making it easy to identify sessions once uploaded to APS software.

# HR4 and HR5 Features

## Easily read visual and EID tag numbers

Large display clearly shows visual ID and EID tag numbers to confirm the correct animals information is being collected.

## Collect data, not just EID numbers

Choose multiple traits to record against each animal such as breed, sex, condition score and pregnancy status.

## Sort on the go

Sort group name is highlighted on screen for easy reference with optional group colours.

## View animal history

View past traits, activities and life data recorded against an animal.
