Redefining What's Possible for our Customers

At Gallagher, everything we do is aimed to make your life easier.

Delivering solutions that are customer inspired and solve everyday farming challenges.

It's our innovative spirit that sets us apart.

MBS Energizer Range

MBS1000i G30100 MBS1800i G31500 MBS2800i G31501

All the smarts and power of the Gallagher i Series and NOW with the ability to power your energizer your way. Mains, battery or solar.

Reliable, adaptive i Series technology - The proven Gallagher i Series technology provides complete confidence in continued fence performance irrespective of changes in power supply, temperatures and fence conditions.

NEW power adaptor input - Easy to use, weather tight power adaptor input. Simply insert the supplied mains or battery lead set (shown below) into the back of the energizer.

Easily monitor and control fence performance - Allows fence information to be seen in a convenient location up to 50m away from the energizer.

Compatible with i Series accessories - Fully compatible with i Series remotes, fence remotes, alarm controller and the supplied display monitor (shown below).

Power your fence, your way - Mains, battery or solar. Energizer comes complete with a mains and battery lead set for all power source options (Solar panel sold separately for solar powered solutions).

MBS2800i

Suitable for fencing all animal types on farms up to 300 acres.

INCLUDED

Fence Energizer and Energizer Controller

SYSTEM UPGRADES

MBS1800i

Suitable for fencing all animal types on farms up to 190 acres.

INCLUDED

Fence Energizer and Energizer Controller

SYSTEM UPGRADES

MBS1000i

Suitable for fencing all animal types on farms up to 100 acres.

INCLUDED

Fence Energizer and Energizer Controller

SYSTEM UPGRADES

MBS Multi Powered Fence Energizers

Any power source. Anywhere.

No matter what your power source or location, the new Gallagher MBS Energizer range provides a superior and convenient animal control solution.

Use any power source - Designed for mains, battery or solar installations up to 32 Hectares/80 Acres

Superior performance in all operating modes - Reliable fence voltage irrespective of your power source

Fast, flexible installation - Easily set up portable or permanent installations in any location

View fence performance at a glance - LED bar graph indicates fence voltage performance

| MODEL | STORED JOULES | PROPERTY SIZE (HECTARES/ACRES) | MULTIWIRE DISTANCE LIGHT CONDITIONS (KM) | MULTIWIRE DISTANCE TYPICAL CONDITIONS (KM) | COMPATIBLE POWER SOURCES |
|--------|---------------|--------------------------------|--|--|--------------------------|
| MBS100 | 1 | 4/10 | 10 | 3 | |
| MBS200 | 2 | 8/20 | 20 | 5 | |
| MBS400 | 4 | 16/40 | 30 | 8 | |
| MBS800 | 8 | 32/80 | 40 | 10 | |

MBS Multi Powered Fence Energizers

Any power source. Anywhere.

Check battery health in an instant - Switch to battery check mode to view your battery status on the LED bar graph

Use any power source - Designed for mains, battery or solar installations up to 32 Hectares/80 Acres

View fence performance at a glance - LED bar graph indicates fence voltage performance

Superior performance in all operating modes - Reliable fence voltage irrespective of your power source

Use in the harshest of farming conditions - Portable, water resistant case, with built in lightning protection

All leadsets included - Mains, battery and fence leadsets all included with the Energizer Gallagher solar kit sold separately

Fast, flexible installation - Easily set up portable or permanent installations in any location

Protect your battery - Smart battery management algorithm protects the battery from being over discharged and permanently damaged

Use any power source - Designed for mains, battery or solar installations up to 32 Hectares/ 80 Acres.

To ensure you have the correct solar panel and battery configuration, visit gallagher.com.

MAINS ADAPTER INCLUDED

12V BATTERY SOLD SEPARATELY

SOLAR KIT SOLD SEPARATELY

S200

Portable Solar Fence Energizer

G36010

Convenient fully integrated portable power. The S200 Solar Energizers come complete with solar panel, rechargeable battery, leadset, and mains recharge kit.

360° mounting on steel posts for correct orientation towards the sun - allows the Energizer to be mounted on a steel post that is already part of the fence line, regardless of which way the post is facing.

Fully integrated, ready to use - includes fence/earth leadset, rechargeable 12v battery and solar panel.

S200

Turn on and forget - with automated battery management, the Energizer will continue to work for up to 3 weeks without sun.

Multiple power options - the customer has full control, with multiple operation modes to suit wildlife animal exclusion and livestock animal inclusion.

Battery Status Indicator - LED light shows battery health in an instant.

NEW FEATURE

Dual solar panel design - improved solar reliability with split solar panel design. Separating the solar panel in two, means that if one is covered by vegetation, the second panel will continue to charge battery.

Portable and quick to install - easily set up in any location and moved about as required allowing it to be used for strip grazing and better pasture management.

Water resistant case, with built in lightning protection - designed to be left outside, rain, hail or shine. Keeps stock contained in all weather conditions.

Multi Wire Ring Top Post

G74813

The new standard for fencing in tough ground.

Ideal for hard, stony ground and heavy cropping - Heavy duty 7mm diameter steel shaft reduces post bending when driven into the ground

Tough, unbendable foot plate - Foot plate can withstand 360kg of pressure so will not bend or deform

Choose your wire heights and spacing - Pre-formed notches allow multiple customised wire heights and ring top head enables single wire use

Strong, secure insulators - Glass filled nylon insulators "snap on" to post to form a reliable connection and are conveniently replaced

Reduced risk of shorting - Wear resistant, patented glass filled nylon ring top head eliminates the risk of shorting on the top wire

Easy to pull out - Ring top head creates a convenient handle for pulling the post out of the ground

Reliable ground holding - 7mm steel foot spike prevents the post from rotating once inserted into the ground

Multi Wire Ring Top Post

The new standard in portable electric fencing.

Ideal for hard, stony ground and heavy cropping - Heavy duty 7mm diameter steel shaft reduces post bending when driven into the ground

Heavy Duty Ring Top Post

G74913

The new standard for fencing in tough ground.

Ideal for hard, stony ground and heavy cropping - Heavy duty 7mm diameter steel shaft reduces post bending when driven into the ground

Tough, unbendable foot plate - Foot plate can withstand 360kg of pressure so will not bend or deform

Choose your wire heights and spacing - Pre-formed notches allow multiple customised wire heights and ring top head enables single wire use

Strong, secure insulators - Glass filled nylon insulators "snap on" to post to form a reliable connection and are conveniently replaced

Reduced risk of shorting - Wear resistant, patented glass filled nylon ring top head eliminates the risk of shorting on the top wire

Easy to pull out - Ring top head creates a convenient handle for pulling the post out of the ground

Reliable ground holding - 7mm steel foot spike prevents the post from rotating once inserted into the ground

Heavy Duty Ring Top Post

The new standard in portable electric fencing.

Reduced chance of tangling - Unique ring top head is centered over the shaft with no protrusions or trapping points

Eliminate risk of shorting - Prevent wear through with super tough over-moulded glass filled nylon head and no metal in the post head

Ideal for hard, stony ground and heavy cropping - Heavy duty 7mm diameter steel shaft reduces post bending when driven into the ground

Tough, unbendable foot plate - Foot plate can withstand 360kg of pressure so will not bend or deform

Reliable ground holding - 7mm steel foot spike prevents the post from rotating once inserted into the ground

Insulated Line Posts

A tailor made electric fence post, Insulated Line Posts require no machinery to install and come in four different heights with multiple configurable wire spacing's to suit the needs of your farm or property.

| PART NUMBER | HEIGHT | PACK SIZE | ANIMALS CONTROLLED |
|---------------------------------|--------|-----------|--------------------|
| Insulated Line Posts | | | |
| G74203 | 950mm | 10 | |
| G74213 | 1140mm | 10 | |
| G74223 | 1350mm | 10 | |
| G74233 | 1500mm | 10 | |
| Insulated Line Post Clip | | | |
| G74434 | NA | 20 | |
| G74703 | NA | 20 | |

Easy to transport - Light, smooth and compact. Can be transported inside the farmer's vehicle which further reduces costs.

Fast and simple install - The composite post can be easily installed with a hand rammer which reduces installation time and avoids the need for heavy expensive equipment. Wires simply clip onto the post, making it significantly faster than stapling or pinning on traditional post insulator systems.

Long life - High quality materials ensure a long life. A UV protected polyethylene sheath protects fibreglass from UV damage.

Multiple configurable wire heights - Pre-formed wire attachment locations enable many different fence configurations.

Flexible posts - The strong yet flexible solid fibreglass core enables the post to flex when the fence is impacted, preventing broken or bent posts, and minimising animal injury.

Strong ground anchoring - The multi-flanged foot design ensures strong ground anchoring, reducing the likelihood of post heave or post misalignment over time.

High strength clips - GF nylon "snap-on" clips form a reliable connection with 200kg holding force - typically twice as strong as most conventional wood or steel post insulator systems.

Electric Fence Dropper

G74514

Electric Fence Droppers maintain wire spacing, reducing the number of posts required in a fence line. When combined with Gallagher Insulated Line Posts it provides a flexible, cost effective solution for permanent electric fencing.

**SUPERIOR
INSULATION**

LONG LIFE - High quality galvanised steel and UV protected glass reinforced polypropylene, backed by a 10 year warranty.

HIGH STRENGTH, SECURE WIRE ATTACHMENT - Glass-filled polypropylene insulation secures wires in correct position for reliable wire attachment.

SUPERIOR INSULATION - Wire attachment points are all electrically isolated from one another to allow for earth return systems and minimise faults.

MULTIPLE WIRE SPACING OPTIONS - Pre-formed wire attachment locations for 5 or 6 wire fence spacings for sheep, goat or cattle wire heights.

TWR-5 & TWR-1 Weigh Scale & Reader

G02606 & G02606

All in one weigh scale, data collector and EID reader (antenna panel sold separately).

Market leading touch screen technology - Full colour, outdoor readable touch screen.

Record treatments on the spot

- Animals can be weighed and administered the correct dose rate, all recorded on the weigh scale at the time of treatment.

→ TWR-5 ONLY FEATURE

Animal data analysis on device

- Shows individual weight gain graphs, as well as weight distribution plots for all animals within a weighing session.

Ultimate user experience

- Execution of tasks have been tested to ensure that we deliver the most farmer friendly experience on the market.

Tough, rugged exterior - Farm ready, tough design.

On board help, 24/7 - The entire product manual is loaded into the product. Help is only one click away.

Animal notes and note alerts

- Record notes against animals on the spot for later review.

Comprehensive recording of life data and traits

- For farmers wanting to record and review more information than simply weight on their animals. Record up to 9 traits per session.

→ TWR-5 ONLY FEATURE

Draft up to 9 groups by weight, weight gain, predetermined EID list or by recorded life data and traits.

Integrated EID reader - Built in EID reader means the farmer can plug the weigh scale straight in to an EID antenna to record weights and easily scan EID tags. This eliminates the need to purchase a separate EID reader.

The complete package, ready to go

- Just plug into your existing load bars and you have everything you need to start weighing:
- Tough and convenient Gallagher carry case
- Mounting bracket
- Micro-fibre screen cloth
- Battery charging cable
- Mains charging cable
- USB drive loaded with APS software
- USB cable for data transfer to PC

Flexible connectivity options

- Whether connecting to drafters or readers via a serial cable, to a PC via USB or utilising the Bluetooth and WiFi wireless options, the TWR's has every option available.

Flexible mounting options

- Easy to use sitting flat, or mounted to a vertical surface. The adjustable mounting bracket allows you to easily tailor the viewing angle for optimum visibility.
